Education

HARVARD UNIVERSITY

A.B. with a Concentration in Computer Science and a Secondary in Statistics

Cambridge, MA

May 2029

LONG BEACH HIGH SCHOOL

Mississippi Scholar | Diploma with High Honors | GPA: 4.00 | ACT: 35/36

Long Beach, MS

May 2025

Salutatorian, Class of 2025 Hall of Fame, Mississippi STAR student, Varsity Cross Country & Track Captain

Technical Skills

Languages: Python, JavaScript, TypeScript, C, HTML, CSS, SQL

Frameworks & Libraries: React, Next.js, Flask, pandas, NumPy, Keras, Matplotlib, Scikit-learn

Concepts: Machine Learning, Data Structures & Algorithms, UX/UI Design, Web Development

Experience

HARVARD TECH FOR SOCIAL GOOD

Cambridge, MA

Software Engineer

Sep 2025 - Present

- Engaging in a selective, project-based program to build and ship applications for social-impact organizations
- Collaborating with team to build digital inventory system for non-profit homeless clothing closet
- Architecting skills across the full product lifecycle, including UX research, feature ideation, Figma prototyping, full-stack dev with modern frameworks, and Git/GitHub version control

PARABLE SECURITY

Cambridge, MA

Co-Founder / Software Engineer

Jan 2026 - Present

- Co-founded an early-stage cybersecurity training startup with a team of four
- Implemented agentic phishing campaigns to train employees in life-like cyberattack scenarios

HARVARD UNDERGRADUATE DATA ANALYTICS GROUP

Cambridge, MA

Discovery Program Data Analyst

Sep 2025 - Dec 2026

- Selected for program focused on applied data science and machine learning for client-based analytics projects
- Utilized Python for data analysis, including libraries such as NumPy, pandas, and matplotlib for data manipulation and visualization
- Engineered an NLP pipeline to quantify Airbnb reviews for client-based insight

HARVARD UNDERGRAD MACHINE INTELLIGENCE COMMUNITY

Cambridge, MA

AI Incubator Project Team Member/ Future of Intelligence Fellow

Sep 2025 - Dec 2026

- Collaborating with a team to develop a self-learning assistant, an AI-powered tool that generates personalized learning roadmaps for learners
- Implementation of the system's roadmap creation agent through CrewAI.
- Fellowship to explore cutting-edge architectures, including Convolutional Neural Networks for computer vision, transformers for LLMs, and diffusion models for generative AI

UNIVERSITY OF SOUTHERN MISSISSIPPI

Long Beach, MS

Hydrography Intern

Jun 2023 - Jul 2023

- Designed and conducted hydrographic surveys utilizing an unmanned surface vessel (EchoBoat) equipped with multi-beam echosounder technology to acquire bathymetric data of the Pearl River floor
- Processed raw sonar datasets and generated visualizations in HYPACK software, producing high-res models

Projects

RolodexWeb: Final project for CS50. Built a web application to visually and interactively map a user's connections. Utilized Firebase Authentication and Firestore database for user data. Incorporated open-source software Reactflow and React to render interfaces.

Additional Activities: Jane Street FOCUS 2026, YaleHack 2026 Winner, HackBrown 2026 Winner, Harvard Undergraduate Latinxs in Finance & Technology, Harvard Technology Review Published Author, Veterans of Foreign Wars Voice of Democracy State Winner, Hispanic Scholarship Fund Youth Leadership Institute Scholar

Interests: Long-distance Running, Learning, Mentorship
